

## Skype

Skype instructions update 7th April - click [here](#) to read Chris Middleton's latest guide.

Skype is one of the original videoconferencing systems and is available on a wide range of devices including desktop/laptop computers, tablets and smartphones. In addition Skype can be used to make video calls using Alexa devices.

**Skype may be downloaded [here](#).**

This site also provide full details of Skype features. unlike Zoom, it does not restrict the length of a session which can support 50 attendees.

Skype has been used successfully by a Bookham Science & Technology group to hold a group meeting at which a PowerPoint presentation was given.

Observations made by Chris Middleton and Judith Witter can be found by clicking [here](#).
